UNFPA in JORDAN

“The United Nations Population Fund”

Because Everyone Counts ...

UNFPA in JORDAN

“The United Nations Population Fund”

Who are We?

We are UNFPA, the United Nations Population Fund ...An International development agency , and a part of the United Nations family.

What do we do?

Our mission statement says it all:

“UNFPA, the United Nations Population Fund, delivers a world where every pregnancy is wanted, every birth is safe, every young person's potential is fulfilled” .

UNFPA - because everyone counts

UNFPA always promotes the right of every woman, man and child to enjoy a life of health and equal opportunity. UNFPA supports countries in using population data for policies and programmes to reduce poverty and to ensure that every pregnancy is wanted, every birth is safe, every young person is free of HIV/AIDS, and every girl and woman is treated with dignity and respect.

What do we focus on?

As part of the global international development system, UNFPA follows up on achieving the International Conference for Population & Development Plan of Action and the Millennium Development Goals specially goal No. 5 which focuses on improving maternal health.

Achieving universal access to reproductive health, family planning, promoting reproductive rights, reducing maternal mortality and morbidity and accelerating progress are the main focus areas of UNFPA.

When was the UNFPA Jordan Office Established?

UNFPA started its programmes of cooperation in Jordan in 1976. UNFPA supports five-year programme cycles which are developed between the Government of Jordan (represented by the Ministry of Planning and International Cooperation) and UNFPA. Each programme cycle is based on achievements and lessons learned in the preceding cycles and the evolving national development priorities.

UNFPA in JORDAN

“The United Nations Population Fund”

How do We Work?

UNFPA Jordan partners with government, other United Nations agencies, communities, nongovernmental organizations, foundations and the private sector to raise awareness and mobilize the support and resources to achieve UNFPA's mission. UNFPA is fully committed to a more effective, coherent and better coordinated United Nations system that “ delivers as one”.

UNFPA Jordan is currently supporting the Eighth Country Programme of Cooperation (2013 - 2017) which was developed within the overall framework of the United Nations Development Assistance Framework (UNDAF) and the Common Country Assessment (CCA). The process of developing the CCA and the UNDAF was jointly conducted by the Government of Jordan and the United Nations system in Jordan.

UNFPA is committed to focus with the Jordanian Government on three main areas in the current country programme, which are:

1. Population Dynamics
2. Maternal And New born Health
3. Gender Equality and Reproductive Health

In addition to the Regular Country Programme; UNFPA Jordan started its Emergency Programme in Jordan in early 2012, to respond to the reproductive health rights of Syrian women and girls and to ensure providing them with high quality life-saving health and protection services.

As part of its Emergency Programme, UNFPA works with national and international partners to provide services in three specific areas:

- Providing reproductive health services and promoting reproductive rights
- Gender based violence prevention and response
- Promoting healthy life styles, involving and responding to the needs of Young People.
